# Enes Küçükpehlivan

## Backend Developer

eneskucukpehlivan.com · Eskişehir, Türkiye
https://github.com/eneskucukpehlivan1
https://linkedin.com/in/enes-kucukpehlivan

Backend development with C# and the .NET stack — Entity Framework, Dapper, ASP.NET Core, MSSQL/PostgreSQL.
RESTful services and microservices-style design with a focus on quality and performance.
Leading complex builds and working closely with teams; solutions driven by function and efficiency.

## Skills

C# / .NET · API · PostgreSQL · MSSQL · SQL · RabbitMQ · Redis · Vue · Nuxt · SSR · Azure · CI/CD · Elastic Stack · APM · Kibana · Load balancing · traffic · Docker · HTML · CSS · JavaScript · WPF

## Experience

### Software Engineer · inventiv

December 2024 — Present | Istanbul

- Backend-focused delivery; service design and integration mostly through REST APIs in production
- Building SSR apps with Vue and Nuxt
- Deployments and environments on Azure; owning CI/CD setup and maintenance
- Redis, RabbitMQ, and the Elastic Stack (Elastic APM, Kibana) for observability, queues, and cache
- Architecture and operations aligned with load balancers and traffic distribution

### Software Developer · Faydam İnovasyon

April 2022 — December 2024 | Eskişehir

- Building, evolving, and maintaining web projects on .NET Core
- Background services such as payments, email, and SMS
- End-user UI with HTML/CSS; dynamic behavior with JavaScript
- WPF desktop apps; building and consuming APIs

### Automation Engineer · Aksa Doğalgaz Dağıtım A.Ş.

June 2019 — April 2022 | Istanbul

- Infrastructure to move field data to local and central SCADA (Modbus, OPC UA, DNP3)
- PLC/RTU/HMI programming for gas distribution, metering, heating, and odorization

### Operation and Support Engineer · Vodafone Digital Operations Center

June 2018 — June 2019 | Istanbul

- Alarm handling with IBM Netcool and routing to the right teams

## Education

B.Sc. · Electrical and Electronics Engineering
Sakarya University
Sakarya
September 2013 — June 2017
